

Company Profile

Executive summary

Founded in 2014 and formally incorporated in 2022, Optimal Insight Ltd, trading as **Unit Security**, was granted its private security license in 2024 under registration number PSRA/OIL/19/72. The company is fully compliant with the Private Security Regulatory Authority (PSRA) standards and has since provided comprehensive security services to both private enterprises and government institutions.

At **Unit Security**, we are dedicated to safeguarding our clients' critical assets by utilizing cutting-edge technology, expert knowledge, and a proactive threat management approach. Our mission is to deliver unparalleled security solutions that not only protect against evolving threats but also empower our clients to operate with confidence and resilience.

We are committed to building a future where businesses of all sizes can thrive, free from the complexities and risks of the digital age. Through continuous innovation, deep expertise, and a steadfast culture of integrity, we aim to lead the security industry. By integrating security seamlessly into our clients' operations, we ensure their success and peace of mind in an ever-changing landscape. *Unit Security* strives to be a trusted partner in protecting and enabling the growth of our clients, allowing them to focus on their core business with complete confidence.

Our Mission

At Unit Security, our mission is to deliver exceptional cybersecurity services that protect and empower businesses in an increasingly digital world.

Our vision

At Unit Security, our vision is to become the global leader in cybersecurity innovation, setting the benchmark for excellence in digital security.

Trusting us for IT solutions

In an era where cyber threats are constantly evolving, UNIT SECURITY prioritize staying ahead of these challenges by implementing cutting-edge strategies tailored to each organization's unique needs. Our approach not only protects sensitive data but also fosters resilience, ensuring that businesses can operate smoothly even in the face of potential disruptions.

Collaboration is at the heart of what we do. By working closely with our clients, we gain a deep understanding of their specific challenges and objectives, allowing us to develop customized solutions that effectively address their security concerns. This partnership not only enhances their cybersecurity posture but also empowers organizations to navigate the complexities of the digital landscape with confidence.

and Services**

Close protection to VIPs

**Sensitive parcel and documents
handling**

Brand protection services

Lorem ipsum

Our services

Data Protection

We provide a range of solutions to safeguard your data, including Continuous Data Protection, Data Leakage Protection, Archiving, and Cloud services

Vulnerability Management and Penetration Testing

Cyber Security testing includes external and internal network vulnerability, Web applications, Wireless and penetration testing.

Governance Risk & Solution Consolidation

Governance, risk and compliance (GRC) refers to a strategy for managing an organization's overall governance, enterprise risk management and compliance with regulations. Think of GRC as a structured approach to aligning IT with business objectives, while effectively managing risk and meeting compliance requirements.

Training & Awareness

User awareness and customized security training, as well as product specific training and simulated social engineering attacks

Consulting services

Developing, deploying infrastructures and technical solutions

Security posture Assessment

A Cybersecurity Posture Assessment is an essential first step for any organization aiming to understand its current security status, identify gaps, and determine necessary actions to enhance its cybersecurity maturity. This assessment helps organizations strengthen their defenses by providing a detailed cybersecurity roadmap.
